FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended **March 31, 2010**.

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____.

Commission File Number 000-52936

INFRASTRUCTURE DEVELOPMENTS CORP.

(Exact name of registrant as specified in its charter)

Nevada
(State or other jurisdiction of
incorporation or organization)

27-1034540
(I.R.S. Employer
Identification No.)

13800 Coppermine Road, 2nd Floor, Herndon, Virginia 20171

(Address of principal executive offices) (Zip Code)

(703) 574-3211

(Registrant's telephone number, including area code)

n/a

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒
No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. The number of shares outstanding of the issuer's common stock, \$0.001 par value (the only class of voting stock), at May 14, 2010, was 20,000,000.

PART I – FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

As used herein, the terms “Company,” “we,” “our,” and “us” refer to Infrastructure Developments Corp., a Nevada corporation, unless otherwise indicated. In the opinion of management, the accompanying unaudited financial statements included in this Form 10-Q reflect all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the results of operations for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year.

Infrastructure Developments Corp.
(A Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
March 31, 2010
(In Canadian Dollars)
(unaudited)

Note 1 - The Company and Significant Accounting Policies

The Company

Infrastructure Developments Corp. (the "Company"), formerly 1st Home Buy and Sell Ltd., was incorporated under the laws of the state of Nevada on August 10, 2006. The Company changed its name to Infrastructure Developments Corp. on March 1, 2010.

The Company reentered the development stage as a result of a spin-off of its operating subsidiary, Pacific Coast Development Corp., on August 31, 2008. The historical results of the split-off subsidiary have been reclassified as discontinued operations in these financial statements.

At March 31, 2010, the Company did not have any ongoing business operations. However, on April 14, 2010, the Company became the parent company of Intelspec International Inc, a Nevada corporation engaged in engineering, construction, and project management ("Intelspec"). This subsequent transaction is described in more detail in Note 6.

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at March 31, 2010, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's June 30, 2009, audited financial statements. The results of operations for the period ended March 31, 2010, is not necessarily indicative of the operating results for the full year.

Development Stage Company

The Company complies with current accounting guidance and the Securities and Exchange Act for its characterization of the Company as development stage.

Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these consolidated financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from these estimates.

Note 1 - The Company and Significant Accounting Policies - continued

Recent Accounting Pronouncements

In April 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-13, "Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades" ("ASU 2010-13"). ASU 2010-13 addresses the classification of a share-based payment award with an exercise price denominated in the currency of a market in which the underlying equity security trades. FASB Accounting Standards Codification ("ASC") Topic 718 was amended to clarify that a share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trade shall not be considered to contain a market, performance or service condition. Therefore, such an award is not to be classified as a liability if it otherwise qualifies for equity classification. The amendments in ASU 2010-13 are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010, with early application permitted. We do not anticipate that the adoption of this guidance will have a material impact on our financial position and results of operations.

In February 2010, the FASB issued ASU No. 2010-09, "Amendments to Certain Recognition and Disclosure Requirements" ("ASU 2010-09"), which amends ASC Topic 855, "Subsequent Events." The amendments to ASC Topic 855 do not change existing requirements to evaluate subsequent events, but: (i) defines a "SEC Filer," which we are; (ii) removes the definition of a "Public Entity"; and (iii) for SEC Filers, reverses the requirement to disclose the date through which subsequent events have been evaluated. ASU 2010-09 was effective for us upon issuance. This guidance did not have a material impact on our financial position and results of operations.

In January 2010, the FASB issued ASU No. 2010-06, "Improving Disclosures about Fair Value Measurements" ("ASU 2010-06"). ASU 2010-06 requires new disclosures for (i) transfers of assets and liabilities in and out of levels one and two fair value measurements, including a description of the reasons for such transfers and (ii) additional information in the reconciliation for fair value measurements using significant unobservable inputs (level three). This guidance also clarifies existing disclosure requirements including (i) the level of disaggregation used when providing fair value measurement disclosures for each class of assets and liabilities and (ii) the requirement to provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for level two and three assets and liabilities. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about activity in the roll forward for level three fair value measurements, which is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance has not had a material impact on our financial position and results of operations.

Management believes the impact of other recently issued standards and updates, which are not yet effective, will not have a material impact on the Company's consolidated financial position, results of operations or cash flows upon adoption.

Infrastructure Developments Corp.
(A Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
March 31, 2010
(In Canadian Dollars)
(unaudited)

Note 2 - Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. However, the Company has suffered recurring losses from operations and has a net capital deficiency that raises substantial doubt about its ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to generate profitable operations in the future and/or obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has plans to seek additional capital through a private placement and public offering of its common stock. These plans, if successful, will mitigate the factors which raise substantial doubt about the Company's ability to continue as a going concern.

The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 3 – Related Party Transactions

Effective July 1, 2006, the Company entered into a loan agreement with a related party. At March 31, 2009, the balance owing is \$153,176. The loan does not bear interest and is due on demand. Imputed interest in the amount of \$5,744 is included in additional paid in capital.

A shareholder has agreed to loan funds to the company as needed to cover expenses. As of March 31, 2010, the balance owing is \$64,692. The loan does not bear interest and is due on demand. Imputed interest in the amount of \$1,287 is included in additional paid in capital.

See Note 6, paragraph 3 for disclosure regarding the forgiveness of these loans subsequent to the period ended March 31, 2010.

Note 4 - Income Taxes

The Company is liable for US Federal taxes. As of March 31, 2010, the Company did not have any income for tax purposes and therefore, no tax liability or expense has been included in these consolidated financial statements.

The Company has accumulated net operating loss carry-forwards for tax purposes of approximately \$270,000 that may be available to offset future taxable income. These operating loss carry-forwards begin to expire in 2027. In accordance with the Tax Reform Act of 1986, annual utilization of the Company's net operating loss carry-forwards may be limited if a cumulative change in ownership of more than 50% is deemed to occur within any three-year period.

Infrastructure Developments Corp.
(A Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
March 31, 2010
(In Canadian Dollars)
(unaudited)

Note 4 - Income Taxes - continued

The deferred tax asset associated with the operating loss carry-forward is approximately \$90,000. The Company has provided a valuation allowance against the deferred tax asset as follows:

Period End	Operating Loss Carry-Forward	Deferred Tax Asset	Allowance	Net Deferred Tax Asset
June 30, 2008	192,187	62,461	(62,461)	-
June 30, 2009	227,667	73,992	(73,992)	-
March 31, 2010	264,784	90,027	(90,027)	-

Note 5 – Share Capital

On March 29, 2010, the Company closed a stock purchase agreement for the sale of 500,000 shares of its restricted common stock for US \$0.20 per share for an aggregate of US \$100,000.

Note 6 - Subsequent Events

1. On April 9, 2010, our Articles of Incorporation were amended to increase the number of authorized shares from 110,000,000 to 510,000,000 shares, consisting of 500,000,000 shares of common stock, par value \$0.001 per share and 10,000,000 shares of preferred stock, par value \$0.001 per share.
2. On April 14, 2010, the Company, Intelspec and the shareholders of Intelspec closed a transaction pursuant to a Share Exchange Agreement, whereby the Company acquired 100% of the outstanding shares of the common stock of Intelspec from the shareholders of Intelspec in exchange for 14,000,000 shares of its common stock. A shareholder cancelled 9,500,000 shares of the Company's common stock as an inducement for Intelspec to enter into the transaction.
3. On April 14, 2010, concurrently with the closing of the Share Exchange Agreement described above, two related parties agreed to forgive debts owed by the Company in the aggregate amount of \$217,867.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements are not historical facts but rather are based on current expectations, estimates and projections. We may use words such as "anticipate," "expect," "intend," "plan," "believe," "foresee," "estimate" and variations of these words and similar expressions to identify forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted. You should read this report completely and with the understanding that actual future results may be materially different from what we expect. The forward looking statements included in this report are made as of the date of this report and should be evaluated with consideration of any changes occurring after the date of this Report. We will not update forward-looking statements even though our situation may change in the future and we assume no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

DISCUSSION AND ANALYSIS

During the quarterly period ended March 31, 2010 the Company sought to identify a suitable business opportunity. Further to this objective, on March 1, 2010 the Company changed its name from "1st Home Buy & Sell Ltd." to "Infrastructure Developments Corp." The change was effected to provide us with a more generic name while management evaluated possible business combinations, acquisitions or development opportunities.

Subsequent Event

On April 14, 2010, the Company acquired up to one hundred percent (100%) of the outstanding shares of the common stock of Intelspec International, Inc. ("Intelspec") from the shareholders of Intelspec in exchange for 14,000,000 shares of our common stock pursuant to the terms and conditions of a Share Exchange Agreement dated April 7, 2010. The transaction caused the shareholders of Intelspec to acquire up to seventy percent (70%) of our outstanding common shares representing control of the Company which for financial reporting purposes is characterized as a reverse acquisition or recapitalization of Intelspec giving effect to the acquisition of 100% of Intelspec. Following the closing of the Share Exchange Agreement, our principal business became the business of Intelspec which is described below and in our Form 8-K filed with the Commission on April 26, 2010.

Intelspec Business

Intelspec is a global engineering and project management service provider focusing primarily on US government contracts and subcontracts. Intelspec provides services through a network of branch offices and subsidiaries located in markets where it has active projects, is bidding on projects, or is investigating project opportunities.

The business focuses on small to mid-size contracts and subcontracts in the \$1 million to \$10 million range thereby filling an underserved niche in the government contracting spectrum. These projects do not generally attract the attention of the large multinational engineering services companies. In many cases these companies are potential customers, as their large-scale projects typically involve numerous subcontracts that fall within our range of expertise and target project range. Few small to medium sized engineering firms in the developed world have the capacity to work in the markets we serve, and local companies generally lack the international-standard expertise demanded by project investors.

US Military Construction and Services

The US military is one of the world's largest sources of construction and service contracts. Such contracts in Southeast Asia have been a significant source of our recent work, including:

- Design/Build Construction of a Close Quarters Battle (CQB) Training Facility, Camp Erawan, Thailand; the project consists of the construction for the U.S. Navy of a two-story shoot house for military training; awarded May, 2009, completed January 21, 2010.
- Construction of seven new barracks, wash facilities, food-preparation facilities and dining facilities, along with the repair of existing, and construction of additional roads, sidewalks, wells, lighting and electrical distribution, for the U.S. Navy's GPOI Training Facilities, Kampong Spoe, Cambodia; awarded August 2009, scheduled completion April 29, 2010.
- Blank Purchase Agreements for heavy equipment and adviser and troop transportation, in support of the 2010 "Angkor Sentinel" exercise in Cambodia, part of the Global Peace Operations Initiative, which aims to train and, where appropriate, equip 75,000 Peacekeepers worldwide; the contract is under negotiation but Intelspec is confident that it will be secured.

These contracts have established our ability to win and successfully execute US military construction contracts. We intend to expand from this base and aggressively pursue further opportunities in this sector.

US Diplomatic Construction

The US State Department's Bureau of Overseas Buildings Operations (OBO) is responsible for building and maintaining US Embassies and other diplomatic facilities around the world, and for improving and enhancing their security and effectiveness. Diplomatic facilities require extremely sophisticated building and planning techniques to assure both efficiency and security. They also require detailed knowledge of local environments and practices. We are well positioned to offer OBO prime contractors a compelling package of high-standard engineering expertise and extensive experience and contact networks in the difficult environments where diplomatic construction is typically carried out. We believe that diplomatic construction offers high potential for future contracts, and is actively pursuing several opportunities in this niche.

Humanitarian and Development Aid

A priority of the current administration is a renewed emphasis on development and humanitarian aid. Aid programs by their nature are focused in the less-developed countries where we are active. Many of these projects require contract construction and service expertise, both for the projects themselves and for support facilities. In many cases local firms are unable to provide the required standard of work, and few outside firms have the capacity to work in these environments, particularly in areas outside major cities. Our proven ability to perform international-standard work in complex and challenging situations is a significant asset in pursuing these contracts.

Non-US Government Contracts

While US government work remains our priority, we still perform work for other clients, notably our contracts with the government of Ras al Khaimah in the United Arab Emirates and a private residential construction contract in Jom Tien, Thailand. While economic stresses have reduced the number of such projects available for bidding, we remain alert for opportunities in this field and will continue to bid on contracts appropriate to our capacities and geographic focus.

Project Selection

The number of projects available for bidding within our target range is enormous. The challenge facing Intelspec is not finding suitable projects to bid on, but rather selecting the opportunities that will be profitable and will align with our business development plan without exposing Intelspec to unnecessary risks. We use numerous resources to review current and future US government budgets and other market indicators. This information is used to determine which clients, regions, sectors, or countries have the best potential for sustainable growth and profitability. Our most reliable source of information on project opportunities is our frequent meetings and robust relationships with existing clients. These efforts allow us to learn of upcoming opportunities, their challenges, concerns, and requirements for successful execution.

We collect, review, and track opportunities via our global interactive data lists. This list is integrated with our current business development plan, available resources, and regional partners to select the target projects. The list ranks opportunities in order of prior, execute ability, potential risk, and sustainable growth per fiscal quarter and year.

We develop a capture plan for each opportunity that outlines the opportunity, key for success, competition, and strengths and weaknesses. Upon finalization of the capture plans, project teams initiate advance, developing as much information as possible on the project, risks, and keys for success. This approach assists in the request for proposal or tender phase since the majority of risk mitigation, technical and price approach have been pre-determined, allowing project teams and estimators to focus their efforts on best value, the best possible proposal, and profitability.

As each project is executed, information about future opportunities, clients, and services is added to interactive data list for updating and review

Prefabricated Housing

We also are a distributor for several types of highly portable and economical prefabricated structures manufactured in China and Thailand. These structures are ideal for use as residence and offices space on project sites, and are also a useful solution for disaster relief situations and other environments requiring the rapid deployment of low-cost housing and other structures.

A typical case where rapidly deployable low-cost housing is required is that of Angola, where as many as five million people – one third of the population – is now living in informal and unserviced shanty towns around the capital. Citing the potential for social unrest stemming from these neighborhoods, the oil-rich Angolan Government has announced a \$50 billion program aimed at providing one million homes within four years, assisted by a \$400 million loan from the United States. Given Angola's dependence on imported construction materials and the limited supply of skilled labor, it will be very difficult to meet this target without large-scale deployment of prefabricated structures. We have presented quotations to agencies handling the housing program, and are actively pursuing this and similar opportunities in areas with severe housing shortages.

Disaster relief and reconstruction efforts also represent a market for prefabricated structures, both for affected populations and as rapidly deployable operation and residence bases for relief personnel. The need for this type of structure has been powerfully underscored by the recent earthquakes in Haiti and Chile and the devastating tsunami in Southeast Asia. We believe that low-cost, readily transportable prefabricated structures are an ideal solution providing both immediate relief and long-term viability for disaster-affected areas, and are actively pursuing relationships with both relief agencies and governments of disaster-prone areas.

RESULTS OF OPERATIONS

The financial statements included in this quarterly report, and this *Management's Discussion of Financial Condition and Results of Operations* represent the results of the Company's operations for the period ending March 31, 2010.

Information regarding Intelspec's results for the periods ended December 31, 2009 and December 31, 2008 is included in the Company's Form 8-K filed with the Commission on April 26, 2010.

Amounts included in this *Results of Operations* are in Canadian dollars.

For the three month period ended March 31, 2010

During the three month period ended March 31, 2010, we incurred general and administrative expenses in the aggregate amount of \$21,663 compared to \$2,566 incurred during the three month period ended March 31, 2009 (an increase in expenses of \$19,097). This increase in expenses is attributable to increased legal and audit fees.

During the three month period ended March 31, 2010, we recorded a loss from foreign currency translation adjustment of \$353 compared to \$2,919 during the three month period ended March 31, 2009. This decrease is attributable to closer parity between the US dollar and Canadian dollar during this period.

Comprehensive loss during the three month period ended March 31, 2010, was \$22,016 compared to a comprehensive loss of \$5,484 during the three month period ended March 31, 2009. The increase is attributable primarily to professional fees.

The weighted average number of shares outstanding was 15,011,111 at March 31, 2010, compared to 17,204,828 at March 31, 2009. The decrease is attributable to the retirement of common stock in 2009.

For the nine month period ended March 31, 2010

During the nine month period ended March 31, 2010, we incurred general and administrative expenses in the aggregate amount of \$44,148 compared to \$20,241 incurred during the nine month period ended March 31, 2009 (an increase in expenses of \$4,811). The increase in expenses is attributable to legal fees and interest.

During the nine month period ended March 31, 2010, we recorded a gain from foreign currency translation adjustment of \$4,228 compared to a loss from foreign currency translation adjustment of \$2,554 during the nine month period ended March 31, 2009. This transition to a gain is attributable to a falling US dollar relative to the Canadian dollar during this period.

Comprehensive loss during the nine month period ended March 31, 2010, was \$39,920 compared to \$22,732 during the nine month period ended March 31, 2009. The increase is attributable primarily to legal fees and interest.

The weighted average number of shares outstanding was 15,003,650 at March 31, 2010, compared to 18,802,498 at March 31, 2009. The decrease is attributable to the retirement of common stock in 2009.

LIQUIDITY AND CAPITAL RESOURCES

Amounts included in this *Liquidity and Capital Resources* are in Canadian dollars.

As at March 31, 2010

Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

At March 31, 2010, our current assets were \$105,916 and our current liabilities were \$230,800, resulting in a working capital deficit of \$124,883.

At March 31, 2010, our current and total assets were \$105,916 compared to total assets of \$0 at our fiscal year ended June 30, 2010, an increase of \$105,916 attributable to cash provided through the sale of our common shares.

As at March 31, 2010, our current and total liabilities were \$230,799 compared to current liabilities of \$194,024 as of our fiscal year ended June 30, 2009, an increase of \$36,775. The increase in current liabilities is attributable primarily to a \$52,741 increase in shareholder loans, offset by a decrease in accounts payable and accrued liabilities.

Stockholders' deficit decreased from \$194,024 as at June 30, 2009 to \$124,883 as at March 31, 2010. The decrease is attributable to the cash infusion from the sale of our common shares.

For the nine month period ended March 31, 2010, net cash flow used for operating activities was \$53,083 compared to net cash flow used for operating activities of \$25,797 for the nine month period ended March 31, 2009. The increase is attributable to legal and audit fees.

For the nine month period ended March 31, 2010, net cash flow provided by financing activities was \$154,771 compared to net cash flow used for financing activities of \$5,790 for the nine month period ended March 31, 2009. Net cash flow provided by financing activities during the nine month period ended March 31, 2010 pertained to additional borrowings on a shareholder loan as well as the sale of our common shares.

On July 1, 2006, we entered into a loan agreement with a related party. As at March 31, 2010, the balance due and owing was \$153,176. The loan does not bear interest and is due on demand. Imputed interest totalled \$5,644 for the period ended March 31, 2010. Additionally, a shareholder agreed to loan us funds as needed to cover expenses. As at March 31, 2010, the balance due and owing the shareholder is \$64,692. The loan does not bear interest and is due on demand. Imputed interest totalled \$1,287 for the period ended March 31, 2010.

Cash Requirements

The Company's cash on hand as of March 31, 2009 is CAD \$105,916. We may not have sufficient cash on hand to pay the costs of our operations as projected over the next twelve (12) months or less. The Company may require additional financing in order to proceed with some or all of its goals as projected over the next twelve (12) months. We presently do not have any arrangements for additional financing in place, and no potential lines of credit or sources of financing are currently available to us. Our failure to secure any necessary outside funding could have an adverse affect on our results of operations and a correspondingly negative impact on shareholder value.

Any additional growth of the Company may require additional cash infusions. We may face expenses or other circumstances such that we will have additional financing requirements. In such event, the amount of additional capital we may need to raise will depend on a number of factors. These factors primarily include the extent to which we can achieve revenue growth, the profitability of such revenues, operating expenses, and capital expenditures. Given the number of programs that we have ongoing and not complete, it is not possible to predict the extent or cost of these additional financing requirements.

Notwithstanding the numerous factors that our cash requirements depend on, and the uncertainties associated with each of the major revenue opportunities that we have, we believe that our business can build long-term value if we are able to demonstrate clear progress toward our objectives.

The Company does not anticipate any contingency upon which it would voluntarily cease filing reports with the Commission as it is a compelling interest of the Company to report its affairs quarterly, annually and currently, as the case may be, to provide accessible public information to interested parties.

We do not intend to purchase any significant equipment during the next twelve months.

We do not expect to pay cash dividends in the foreseeable future.

We have no defined benefit plan or contractual commitment with any of our officers or directors.

We have no current plans to make any changes in our number of employees.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this quarterly report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

RECENT ACCOUNTING PRONOUNCEMENTS

Please see Note 1 to the financial statements attached hereto for recent accounting pronouncements.

INTEREST RATE

Interest rates are generally controlled. The majority of our debt owed at March 31, 2010 was to a related party which debt did not bear interest so fluctuations in interest rates did not impact our result of operations at March 31, 2010. However, we may need to increase our reliance on bank financing or other debt instruments in the future in which case fluctuations in interest rates could have a negative impact on our results of operations.

GOING CONCERN

The independent auditors' report accompanying our June 30, 2009 and 2008 financial statements contains an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this report on Form 10-Q, an evaluation was carried out by the Company's management, with the participation of the chief executive officer and the chief financial officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

Based on that evaluation, the Company's management concluded, as of the end of the period covered by this report, that the Company's disclosure controls and procedures were not effective in recording, processing, summarizing, and reporting information required to be disclosed, within the time periods specified in the Commission's rules and forms, and that such information was accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes in internal controls over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the three months ended March 31, 2010, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are not a party to any pending legal proceeding. No federal, state or local governmental agency is presently contemplating any proceeding against the Company. No director, executive officer or affiliate of the Company or owner of record or beneficially of more than five percent of the Company's common stock is a party adverse to the Company or has a material interest adverse to the Company in any proceeding.

ITEM 1A. RISK FACTORS.

Not required for smaller reporting companies.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. (REMOVED AND RESERVED)

Removed and reserved.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

Exhibits required to be attached by Item 601 of Regulation S-K are listed in the Index to Exhibits on page 20 of this Form 10-Q, and are incorporated herein by this reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO RULE 13a-14 OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Thomas Morgan certify that:

1. I have reviewed this report on Form 10-Q of Infrastructure Developments Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the period presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting (as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including any consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

Date: May 14, 2010

/s/ Thomas Morgan

Thomas Morgan, Chief Executive Officer and Chief Financial Officer

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE
SARBANES-OXLEY ACT OF 2002**

In connection with the report on Form 10-Q of Infrastructure Developments Corp., for the quarterly period ended March 31, 2010, as filed with the Securities and Exchange Commission on the date hereof, I, Thomas Morgan, do hereby certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge and belief:

- (1) This report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in this report fairly presents, in all material respects, the financial condition of the registrant at the end of the period covered by this report and results of operations of the registrant for the period covered by this report.

Date: May 14, 2010

/s/ Thomas Morgan

Thomas Morgan, Chief Executive Officer and Chief Financial Officer

This certification accompanies this report pursuant to §906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the registrant for the purposes of §18 of the Securities Exchange Act of 1934, as amended. This certification shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of this report), irrespective of any general incorporation language contained in such filing.
